AMERICAN LEISURE STYLE

M31 Series

M31 series inspiration source:

M31 Malibu series,paradigm of American lifestyle.Feel the utmost classical and pure leisure spirit in American lifestyle under the sunshine, on the beach and in the sea waves.Start your chic daily life from here and love yourself like going on a vacation.

Built in 1991, Malibu is located in the west California of the United States. Malibu beach enjoys the most beautiful ocean scene, soft beach sand and passionate sunlight of the south California. By virtue of its outstanding landscape and natural resources, it has formed a relaxing and free style, and thus become a popular vacation place for celebrities. Inspired by this, the designer has worked out the M series which adopts an abstract and modern form of art to create products with compact outlines, collage in different colors and plain texture, so as to make the living space simple and fashionable.
